

# 2011/12

Name	Synonyms	Formula
nylamine*		(C <sub>6</sub> H <sub>5</sub> ) <sub>2</sub> N
nylene	benzo[ <i>b</i> ]phenanthrene; isochrysene	C <sub>18</sub> H <sub>12</sub>
nylamine*( <i>n</i> )		(CH <sub>2</sub> CH
nyl borate.	See Propyl borate.	
nyl hydrate.	See Cyclohexanehexone, hydrate*.	
ide, dialyl.	See Allyl trisulfide.	
-benzyl.	See Methane, triphenyl.	
4'-dimethyl-	See Ethane, 1,1,1,2-tetraphenyl.	
-ethyl-	See Methane, phenyl- <i>p</i> -tolyl.	
or <i>p</i> -methyl-	See Propane, 1,1,1-triphenyl.	
-methyl-	See Methane, diphenyltolyl.	
ol.	See Ethane, 1,1,1-triphenyl.	
trithiane.	See Carbinol, triphenyl.	
4,6-trimethyl-	See Formaldehyde, thio-	SCH(CH <sub>3</sub> )SCH-
( $\alpha$ )	$\alpha$ -trithioacetaldehyde; $\alpha$ -trimolecular thioacetaldehyde	(CH <sub>3</sub> )SCHCH <sub>3</sub> ...
4,6-trimethyl-	$\beta$ -trithioacetaldehyde; $\beta$ -trimolecular thioacetaldehyde	SCH(CH <sub>3</sub> )SCH-
( $\beta$ )		(CH <sub>3</sub> )SCHCH <sub>3</sub>
triphenyl- (higher-melting)	$\beta$ -trithiobenzaldehyde	[SCH(C <sub>6</sub> H <sub>5</sub> )] <sub>3</sub>
triphenyl- (lower-melting)	$\alpha$ -trithiobenzaldehyde	(SCHC <sub>6</sub> H <sub>5</sub> ) <sub>3</sub>
ine.	See Laudanidine.	
cocaine	See Methyl, triphenyl-benzoyl; pseudotropeine	
drochloride		C <sub>15</sub> H <sub>19</sub> NO <sub>2</sub> ·HCl
c acid.	See Tropic acid.	
acid	$\alpha$ -phenylacrylic acid; tropic acid	
pine ester.	See Atropine.	
e	8-methyl-3-nortropanol; N-methyltropine	
oroplasmate		(C <sub>8</sub> H <sub>15</sub> N
ecarboxylic acid	See L-Eoponine.	PtCl <sub>4</sub>
ine, N-methyl-	See Tropine.	
rophan	<i>dl</i> - $\beta$ -(3-indyl)alanine; <i>dl</i> - $\alpha$ -amino-3-indolepropionic acid	C <sub>8</sub> H <sub>9</sub> NO
tophan	<i>d</i> - $\beta$ -(3-indyl)alanine; <i>d</i> - $\alpha$ -amino-3-indolepropionic acid	(NH <sub>2</sub> )C
tophan	<i>l</i> - $\alpha$ -amino-3-indolepropionic acid; <i>l</i> - $\beta$ -3-indylalanine	(NH <sub>2</sub> )C

## Spellex Biotech Spellchecker - Wins & Mac

Turn your basic English spell checker into a biotechnology word expert with *Spellex Biotech Spellchecker 2010* ...the world's first biotechnology spell checker. Spellex Biotech works inside your spell checker, exactly like your spell checker so there's nothing new to learn. No manuals to read, no new commands, and no more embarrassing biotechnology spelling errors.

Listed below is product information for Spellex's new biotechnology spell checker. Provides a comprehensive spell checking solution for the biotechnology field covering molecular biology, biotechnology, biomedicine, general biology, general chemistry, organic chemistry, biochemistry, biophysics, botany, microbiology, cell biology, molecular genetics, and the life sciences. Encompasses new and standard terminology for biochemical substances, compounds, structures, activities, concepts, and processes. Incorporates the new field of bioinformatics, consisting of structure analysis; sequence analysis; primary, composite, and secondary databases; and information networks. Quickly and easily spell check more than 130,000 biotechnical terms such as deliquescent, magnetophoresis opiomelanocortin, Rhabdoviridae, and zeugmatography right inside your spell checker. Encompasses the biomedical field – including biochemicals, chromatography, cell biology, immunobiologicals, neuroscience, radiochemicals, electrophoresis, and molecular biology.

Spellex Biotech Spellchecker even covers key concepts in biomedical engineering transport phenomena emphasizing terminology from chemical and physical transport processes with applications towards the development of drug delivery systems, artificial organs, bioartificial organs, and tissue engineering. Includes SI prefixes and SI base units including ampere, candela, kelvin, kilogram, metre, and mole, as well as SI derived units, and SI supplementary units. Includes hundreds of pertinent abbreviations and acronyms, as well as organizations that are useful to biochemical and molecular biologists. Covers the correct spelling of the names of relevant Nobel Laureates and eponyms in the biotechnology field as well as internationally recommended biochemical nomenclature and alternative names for biochemical compounds. Includes terms relating to ecology, limnology, pharmacology, and toxicology.

This comprehensive biotechnology speller also encompasses medically and biotechnologically relevant organisms such as bacteria, worms, fungi, and thousands of plants. Includes a comprehensive botanical science word list providing over 40,000 scientific and common names for vascular and non-vascular plants and includes taxonomy, morphology, plant diseases, physiology of plants and plant life. Includes a comprehensive listing of mammals of the world containing the names of the 4,000 currently recognized species of mammals in a taxonomic hierarchy that includes order, family, subfamily, and genus. Allows you to look up biotechnology terms you are unsure of while inside your spell checker without exiting your program.

**Please Note: This product is available as a US version, UK Version, and now an **Australian Version**.**

**Please specify which version you require at time of ordering. (Simply place UK Version, US Version or AU Version in the Additional Information box, located in the Miscellaneous section of the Shopping Cart, along with the Word Processor software you use.)**

### Spellex Veterinary Spellchecker - Wins & Mac

Accurately spell check veterinary specialties including avian medicine, animal anatomy & physiology, bovine medicine, cardiology, dentistry, epidemiology, gastroenterology, genetics, immunology, ophthalmology, pathology, pharmacology, radiology, surgery, urology, and zoonotic diseases, with the Spellex Veterinary Spellchecker. Covers numerous animal systems including the hematopoietic system, as well as the digestive, endocrine, integumentary, musculoskeletal, nervous, and respiratory systems.

Contains FDA approved animal drug names including proprietary names, generic drugs, OTC and prescription pharmaceuticals, discontinued drugs, active ingredients, drug manufacturers, and much more. Includes terminology from animal circulatory systems disorders such as bovine leukosis, canine malignant lymphoma, equine infectious anaemia, feline leukaemia, hemostatic disorders, polycythemia, and heart disease. Includes comprehensive pharmacologic - therapeutic classifications covering analeptics, anaesthetics, anthelmintics, antiprotozoals, antifungals, antihistamines, antimicrobials, autonomic drugs, cardiac drugs, nutritional electrolytes, gastrointestinal, hormones, muscle relaxants, narcotics, non-steroidal anti-inflammatory, respiratory, and sedatives.

Covers special terminology from the equine, laboratory, swine, cattle, and dog and cat breeding industries. Includes animal metabolic disorders such as congenital erythropoietic porphyria, fatty liver disease of cattle, hypocalcemic tetany in horses, malignant hyperthermia, post-parturient hemoglobinuria, transport tetany in ruminants, and more! Provides a comprehensive coverage of animal reproductive systems related to bovine genital campylobacteriosis, cystic ovary disease, equine coital exanthema, metritis in large animals, prolonged gestation, trichomoniasis, udder diseases, and mammary tumours, just to name a few!

Works inside your favourite Microsoft, WordPerfect, or Lotus spell checker, exactly like your current spell checker, so there is nothing new to learn. No manuals to read, no commands to learn, and no more embarrassing veterinary spelling errors. This speller allows you to look up words while inside your spell checker, without exiting your program.

### Spellex Botanical Spellchecker - Wins & Mac

Spellex Botanical Spellchecker is a comprehensive botanical terminology spell checker which includes the correct spelling of tens of thousands of vascular plants, mosses, liverworts, hornworts, and lichens grown in the United States, its territories, and around the world. Covers the correct spelling of thousands of plants including annuals, bulbs, cacti, succulents, grasses, water plants, houseplants, perennials, shrubs, bushes, trees, vines, crawlers, and wild flowers.

Includes the spelling of thousands of common plant names, scientific names and botanical names as well as plant families, genera, species, and symbols. This comprehensive speller even includes the correct spelling of a wide

variety of plants with common uses including edible and medicinal plants and plants used for habitat creation and landscape restoration. Provides accurate spelling of both common and uncommon terms from botanical taxonomy and nomenclature including meiosis, prokaryotes, and protista as well as hundreds of dinoflagellates, haptophytes, heterokonts, bryophytes, angiosperms, fungi, euglenoids, and cryptomonads. Includes the common names and scientific names of hundreds of plant diseases including bacterial diseases, fungal diseases, nematodal and parasitic diseases, virus and viroid diseases, genetic diseases, and phytoplasmal diseases. Even includes an extensive coverage of marine botany covering major ecosystems of the marine environment including macroalgae and microalgae, salt marshes, mangrove forests, seagrass beds, and coral reefs. Correctly spells abbreviations, acronyms, eponyms, alternative and variant spellings, and plural word forms from the botany field.

Allows you to look up the correct spelling of botanical words while inside your spell checker, without exiting your program. Works inside your favourite Microsoft, WordPerfect, or Lotus spell checker, exactly like your current spell checker so there is nothing new to learn. No manuals to read or commands to learn, and no more embarrassing spelling errors.

### **Spellex Technical Spellchecker - Wins & Mac**

Turn your basic spell checker into a scientific and engineering word expert with Spellex Technical 2010 ... the most comprehensive, up-to-date, and accurate scientific and engineering spelling checker ever developed.

Listed below is product information for Spellex's comprehensive technical spell checking software: Correctly spells more than 50,000 scientific and engineering terms in fields ranging from aerospace to zoology right inside your spell checker. Quickly and easily spell check technical terms like parastratigraphics, Bernoulli, schreinerize, decyltrichlorosilane ... or thousand of other terms from scientific, engineering, computer, and life science fields.

Includes terms from astronomy, anatomy, acoustics, architecture, biology, chemistry, chemical engineering, communications, computer science, ecology, electronics, engineering, geology, hydrology, industrial engineering, mapping, mathematics, mechanical engineering, mineralogy, physics, physiology, science and technology, statistics, thermodynamics, virology, zoology, and many more. Includes hundreds of abbreviations and acronyms common within technical disciplines as well as professional degrees and organizations. Works inside your spell checker, exactly like your spell checker so there is nothing new to learn. No manuals to read, no commands to learn, and no more embarrassing technical spelling errors.

**Please Note: This product is available as a US version, UK Version, and now an **Australian Version**.**

[Cat #: TG-6](#)**The Illustrated Dictionary of Earth Sciences - Wins & Mac**

Geological terms are easier to understand with a full color photograph, movie, and/or labeled illustration. Illustrated Dictionary of Earth Science is an excellent classroom reference for you and your students! In a collaborative effort with the American Geological Institute, this CD-ROM contains over 8700 earth science, environmental, mining, physics, engineering, and life science definitions. Over 2000 terms are illustrated with a full color illustration, photograph, or movie (video or animated illustration).

Term, definition, and images pop up instantly as you select a term. You can click on terms shown in color within the definition to link to that dictionary entry. You can also print the illustrations, definitions, and photographs. Enlarged illustrations include labels. Grades 7-12 and college. This program on Windows does not properly display images with QuickTime™ version 7.5.5 or later. For Macintosh, this program requires the Classic environment.

**System Requirements: Macintosh:** PowerPC™ 180 MHz processor (G3 or higher recommended); Mac OS® 9.2 to Mac OS X, 128 MBytes available RAM; thousands or millions of colors. QuickTime™ required. **Windows:** Windows 98®: Intel® Pentium® II 200MHz, 64 MBytes available RAM; Windows 2000® and Windows XP®: Pentium III 450 MHz, 128 MBytes available RAM; thousands or millions of colors. QuickTime™ required. This program was developed as a 32-bit application and is not supported on 64-bit versions of XP or Vista.

	Synonyms	
amine*		(C
ene	benzo[ <i>b</i> ] phenanthrene; isochrysene	C
amine*(n)		(C
borate.	See <i>Propyl borate</i> .	
hydrate.	See <i>Cyclohexanehexone, hydrate</i> *	
thialyl.	See <i>Allyl trisulfide</i> .	
zyl-.	See <i>Methane, triphenyl-</i> .	
methyl-.	See <i>Ethane, 1,1,1,2-tetraphenyl-</i> .	
yl-.	See <i>Methane, phenyldi-p-tolyl-</i> .	
-methyl-.	See <i>Propane, 1,1,1-triphenyl-</i> .	
hyl-.	See <i>Methane, diphenyltolyl-</i> .	
ine.	See <i>Ethane, 1,1,1-triphenyl-</i> .	
trimethyl-	See <i>Chloroal, triphenyl-</i> .	SC
	$\alpha$ -trithioacetaldehyde; $\alpha$ -trimolecular thioacetaldehyde	L
rimethyl-	$\beta$ -trithioacetaldehyde; $\beta$ -trimolecular thioacetaldehyde	SC
nyl- (higher- g)	$\beta$ -trithiobenzaldehyde	[S
nyl- (lower- g)	$\alpha$ -trithiobenzaldehyde	(S
ne	See <i>Laudanidine</i> .	
	See <i>Methyl, triphenyl-</i> .	
	benzoyl-pseudotropeine	C
oride		C
d.	See <i>Tropic acid</i> .	
	$\alpha$ -phenylhydracrylic acid; tropaic acid	C
ster.	See <i>Atropine</i> .	C
	8-methyl-3-nortropanol; N-methyltropoline*	C
arate		(C
oxylic acid	See <i>l-Ecgonine</i> .	I
N-methyl-	See <i>Tropine</i> .	
han	<i>dl</i> - $\beta$ -(3-indyl)alanine; <i>dl</i> - $\alpha$ -amino-3-indolepropionic acid	C
uan	<i>d</i> - $\beta$ -(3-indyl)alanine; <i>d</i> - $\alpha$ -amino-3-indolepropionic acid	C
uan	<i>l</i> - $\alpha$ -amino-3-indolepropionic acid; <i>l</i> - $\beta$ -3-indylalanine	C
